

new and relevant circumstances or information. If so, the notice and comment procedures outlined above will be followed to the extent practical.

(b) *Environmental Assessments.* In preparing an Environmental Assessment, the Section of Environmental Analysis will verify and independently analyze the Environmental Report and/or Historic Report and related material submitted by an applicant pursuant to sections 1105.7 and 1105.8. The Environmental Assessment will discuss relevant environmental and historic preservation issues. SEA will serve copies of the Environmental Assessment on all parties to the proceeding and appropriate federal, state, and local agencies, and will announce its availability to the public through a notice in the FEDERAL REGISTER. In the case of abandonment applications processed under 49 U.S.C. 10903, the availability of the Environmental Assessment must be announced in the applicant's Notice of Intent filed under 49 CFR 1152.21. The deadline for submission of comments on the Environmental Assessment will generally be within 30 days of its service (15 days in the case of a notice of abandonment under 49 CFR 1152.50). The comments received will be addressed in the Board's decision. A supplemental Environmental Assessment may be issued where appropriate.

(c) *Waivers.* (1) The provisions of paragraphs (a)(1) or (a)(4) of this section or any STB-established time frames in paragraph (b) of this section may be waived or modified where appropriate.

(2) Requests for waiver of § 1105.10(a)(1) must describe as completely as possible the anticipated environmental effects of the proposed action, and the timing of the proposed action, and show that all or part of the six month lead period is not appropriate.

(d) *Third-Party Consultants.* Applicants may utilize independent third-party consultants to prepare any necessary environmental documentation, if approved by SEA. The environmental reporting requirements that would otherwise apply will be waived if a railroad hires a consultant, SEA approves the scope of the consultant's work, and the consultant works under SEA's su-

pervision. In such a case, the consultant acts on behalf of the Board, working under SEA's direction to collect the needed environmental information and compile it into a draft EA or draft EIS, which is then submitted to SEA for its review, verification, and approval. We encourage the use of third-party consultants.

(e) *Service of Environmental Pleadings.* Agencies and interested parties sending material on environmental and historic preservation issues directly to the Board should send copies to the applicant. Copies of Board communications to third-parties involving environmental and historic preservation issues also will be sent to the applicant where appropriate.

(f) *Consideration in decisionmaking.* The environmental documentation (generally an EA or an EIS) and the comments and responses thereto concerning environmental, historic preservation, CZMA, and endangered species issues will be part of the record considered by the Board in the proceeding involved. The Board will decide what, if any, environmental or historic preservation conditions to impose upon the authority it issues based on the environmental record and its substantive responsibilities under the Interstate Commerce Act. The Board will withhold a decision, stay the effective date of an exemption, or impose appropriate conditions upon any authority granted, when an environmental or historic preservation issue has not yet been resolved.

(g) *Finding of No Significant Impact.* In all exemption cases, if no environmental or historic preservation issues are raised by any party or identified by SEA in its independent investigation, the Board will issue a separate decision making a Finding of No Significant Impact ("FONSI") to show that it has formally considered the environmental record.
